My Sense of Values

I got my sense of values, of what's important

from my parents and from my grandparents. We were always together for Sunday dinners.

The thing I remember most from those Sunday dinners is that we all talked and most importantly

we all listened to what one another had to say and that's something that I have used

and needed in my job as an appellate judge

[PFB] I'm Janet Stumbo and I approve this message.
