Predators who harm children shouldn't get off on technicalities.

Judge Robin Wynne is tough on sexual predators,

refusing to allow technicalities to overturn convictions.

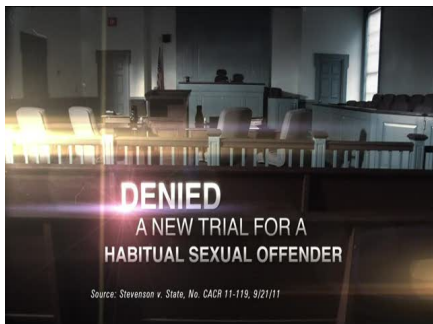

He refused to grant any leniency

to a man convicted of raping his 8-year-old stepdaughter.

He put him in jail for 35 years.

And Wynne denied a new trial for a habitual sexual offender convicted of assaulting a young boy.

Call Judge Wynne.

[PFB] Tell him keep protecting our children with zero leniency for predators.
